Centre of Excellence in Artificial Intelligence  
Indian Institute of Technology, Kharagpur

Date: 19.08.2020

I certify that Akshat Suwalka, a 3rd year student of BTech manufacturing science and engineering had worked on a project on **"Measuring Dead Leaf Area for Agricultural Application using Image Processing"** under me during Aug-Sept 2019. He has been remarkably sincere and successfully completed the tasks that were assigned to him.

I wish him well.

Sincerely,  
Jiaul Paik
